

Indian Ambassador opens 24-hr medical facility for Al Naba staff

Muscat: Indra Mani Pandey, the Indian Ambassador to Oman inaugurated the new state-of-the-art medical clinic in Ghala for Al Naba staff. The chairman of the Group, Sayyid Khalid paid tribute to His Majesty, whose wise leadership has changed the global outlook of Oman. He expressed the utmost gratitude to the Indian Ambassador for paying a visit to Al Naba's facilities including the head office, new medical centre and support functions. Sayyid Khalid reiterated Al Naba's commitment to employee welfare and medical attention. He added that this new round the clock operational clinic is equipped with all requisite amenities standardised by Ministry of Health. The clinic has dedicated doctors, nurses and attendants to handle staff medical emergencies. The team has been supported with in-house pharmacy and ambulance, which is the first of its kind.

"Such facilities are also planned for our bigger regional centres like Sohar and Salalah. Our objective is to provide a comprehensive congenial living space for every member of our family and these health centres will play a vital role in their greater well being. Our rating as the most preferred brand in the past years was solely due to these dedicated 'Men in Green'. We strive to provide the best facilities to all our staff across board," said the Chairman.

The Chairman also added that the backbone is the 9,000 plus workforce of Al Naba Holding, who relentlessly deliver committed service in all core business activities like Infrastructure development, catering services, trading and integrated facility management. The Ambassador thanked Sayyid Khalid for the care shown concerning the welfare of the Indians employed by the company.

Dr Lakshman, Head of the Medical Services of Al Naba said that the clinic is open to all its staff members and critical issues are handled in association with other leading hospitals. "We ensure that every employee gets best available medical attention in a short time span", he said.

Al Naba's living space of 75,000 square metres built for its staff is well equipped with medical facilities. We are nearing our goal where every employee can just walk over to their medical team for routine check-up or emergencies, every hour of the day.

The company has gone the extra mile in creating a healthy life by associating with leading hospitals in India, Nepal and Bangladesh for specialised treatment of our workforce.

Dr Lakshman guided the guests and staff through the observation centres, isolation rooms and other support systems within the premises. He thanked the management and team for constructing this modern facility, which will be another landmark in Al Naba's history.
